CURRICULUM VITAE

PRITHA SHARMA
B.Sc. (Hons.) Forensic Science with Research
Lovely Professional University
Academic Session: 2026–2030

1. PROFESSIONAL PROFILE

I am an enthusiastic and dedicated undergraduate student pursuing B.Sc. (Hons.) Forensic Science with Research at Lovely Professional University. I have a strong interest in forensic investigations, criminology, criminal psychology, and understanding the behavioural patterns of offenders. I aspire to develop scientific knowledge, investigative abilities, and research skills to contribute to the fields of forensic science and criminal justice.

2. AREAS OF INTEREST

Criminal Psychology: Understanding the mindset, motives, and behaviour of criminals.

Criminal Profiling: Studying behavioural patterns to understand and analyse offenders.

Criminology: Exploring the causes, theories, and consequences of criminal behaviour.

Victimology: Understanding the experiences of crime victims and their role in the criminal justice system.

Serial Crimes: Studying patterns, motives, and methods involved in repeated criminal activities.

Criminal Investigation: Understanding investigative procedures and evidence-based approaches.

Penology: Exploring correctional institutions, punishment, and offender rehabilitation.

Crime Prevention: Understanding strategies to reduce criminal activities and improve public safety.

3. ACADEMIC AND PROFESSIONAL SKILLS

Research and information gathering.
Analytical and logical reasoning.
Basic forensic science knowledge.
Scientific report writing.
Case study analysis.
Understanding of criminological concepts.
Basic knowledge of fingerprint identification.
Critical thinking and problem-solving.
Observation and attention to detail.
Communication and presentation skills.

4. CAREER OBJECTIVE

To establish a successful academic and professional career in criminology and forensic science by developing expertise in criminal behaviour, criminal investigation, and criminological research. I aim to pursue postgraduate education at an internationally recognised institution and contribute to the understanding of crime, justice, and society.

5. CAREER PLANS

Short-Term Goals

Complete my undergraduate degree in B.Sc. (Hons.) Forensic Science with Research.

Build a strong academic foundation in criminology and forensic science.

Participate in research projects, workshops, seminars, and internships.

Develop analytical, investigative, and academic research skills.

Long-Term Goals

Pursue an MSc in Criminology at King's College London, United Kingdom.

Gain advanced knowledge of criminal behaviour, criminological theories, and the criminal justice system.

Participate in international research opportunities and academic programmes.

Build a professional career in criminological research, criminal investigation, or related fields.

Contribute to society through research-based approaches to crime prevention and criminal justice.

6. PERSONAL STRENGTHS

Curious and investigative mindset.

Passion for understanding human behaviour.

Detail-oriented and observant.

Dedicated and self-motivated.

Responsible and disciplined.

Open to learning and exploring new ideas.
